

Project Title		Integrated Border Management For Sirali
Desired Results	Improved Efficiency in clearance of goods and persons and reduce time to cross the border by 30%	
Implementing Partner	Tanzania Revenue Authority	
Target Group	Border officials, transporters, importers and exporters in Tanzania/East Africa	
Value (In US\$)	500,000.00	
Implementation period	February 2019 – December 2020	
Why?	Procedures for border Crossing involve multiple border agencies working in isolation. In addition to that these borders are characterized by outdated infrastructure, low border agency capacity. Low levels of understanding of import and export procedures by traders and border staff results in delays. Delays increase transportation costs for traders.	
What?	Tanzania Revenue Authority (TRA) with support of TradeMark East Africa (TMEA) is embarking on improving the efficiency in clearance of goods and people through; <ul style="list-style-type: none"> • on setting up of an institutional and legal framework necessary for collaboration in border management at inter-agency and bilateral levels • review and implement one stop border post procedures, • train border agency officials, and install ICT networks 	
How?	TMEA is providing funding for the ICT Installation and supporting the lead agencies to implement the project on time and ensure quality. This project is linked to other TMEA supported projects that will provide: <ul style="list-style-type: none"> • Improved IT infrastructure. • Harmonized working procedures on both sides of the border.
