

Project Name	Tunduma One Stop Border Post
Desired Results	Efficient border processing, improved knowledge and skills of border agencies and compliance with border procedures; hence reducing waiting times at the Tunduma border point. As a result, the border post will as well contribute to reducing trade costs in East Africa.
Implementer	Tanzania Revenue Authority (TRA)
Target Group	Importers and Exporters
Value (US\$)	7,940,000
Implementation Period	2011-2020
Why?	This project involves construction and provision of physical facilities at the Tunduma border that includes administration buildings and an inspection shed to accommodate the adjoining states' border agencies and roads to facilitate the exit and entry into the OSBP. The overall aim is to facilitate the efficient cross border movement of trucks/vehicles, goods and persons.
What?	<p>A one stop border post is being constructed at the Tunduma border point. Key outputs:</p> <ul style="list-style-type: none"> • Improved border post and IT infrastructure (Integrated Border Management). • Harmonized working procedures on both sides of the border. • Training for border agency staff, freight forwarders and traders.
How?	TMEA is providing full funding for the construction of the OSBP and is working with relevant border agencies to set up mechanisms for integrated border management. Harmonization of customs procedures is undertaken by a joint task force of experts from Tanzania and Zambia. The project is implemented in coordination with other ongoing initiatives of the World Bank, JICA, USAID, the African Development Bank and the European Union. The OSBP is also linked to the numerous TMEA single window initiatives.
